**Subject: Re: Planning Application NY/2022/0103/FUL - Gayles Quarry**

Dear Joan,

Please can you upload this objection to the portal. Our address is [REDACTED],  
Richmond, North Yorkshire.

Our objection is based on :

- Potential impact of quarry operations, dust and washing of vehicles on water courses running through our land and negatively impacting on our livestock and farming activities and countryside.
- Increased traffic from the quarry vehicles including 40 tonne low loaders on our local rural roads which are already narrow and could limit and interfere with our farming activities particularly at harvest and other busy times .
- Impact of noise from quarry operations for 60 hours a week on our livestock grazing nearby
- Impact of dust from quarry operations on nearby land and other fields alongside the transport routes to be used by quarry vehicles , potentially damaging our crops being grown.

Regards,

[REDACTED]
