Subject: New comments for application NY/2025/0030/ENV
Date: 07 March 2025 18:15:54

New comments have been received for application NY/2025/0030/ENV from Miss Poppy .

Comments:

too close to the village will cause light and noise pollution. If extraction is successful, the company propose to apply for further planning which could last 20 yrs - similar proposals already been refused across other areas for the country due to the Emissions so why cause irreparable damage exploring for something we may not be able to use. known habitat for wildlife including protected species such as bats. HGV movement will cause a increase in traffic already congested road in small village as one of the only routes between scarborough and whitby. not in line with the goal to reach net 0, money land and resources should be directed away from fossil fuels, the HGV movement and environmental damage will INCREASE emissions taking us further from this goal. There is no plan in place to ensure that any fuel extracted is used in the UK so residents will only be impacted negatively. This is an enourmous structure which will severely impact our heritage coastine that relies on tourism
