New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Ms Miriam Nice.

Comments:

This is a shocking and dreadful proposal. The company involved are clearly trying to downplay the impact the drilling rig will have. A 30+ metre tower along this beautiful stretch of countryside, belching out flares and pollution, disturbing wildlife and ruining the lives of local people is an absolute outrage. It's maddening and heartbreaking that this is even being considered as a possibility. I hope the council does the right thing and throws this proposal in the bin where it belongs. We need clean energy for the future of our planet not yet more fossil fuels ruining our climate and our future.
