Dear Amy Taylor

I have tried to raise my objections to the application by Europa Oul and Gas on the website but keep getting an error message.

I strongly object to the proposal for the following reasons.

Firstly, I object in principle to the extraction of fossil fuels on the grounds that it will contribute to global heating.

Secondly, the proposal will have a detrimental effect on me, my family, and our property owing to the increase in HGV traffic through the town, going through the town centre, on Seamer Road and the A64. This will create noise, vibration, air pollution and traffic congestion, affecting the health and wellbeing of me and my family.

Thirdly, the traffic congestion and the despoilment of the rural village of Burniston will have a detrimental effect on the tourism industry, which will in turn impact on the employment prospects for local people.
