Subject: New comments for application NY/2025/0030/ENV
Date: 12 March 2025 09:46:58

New comments have been received for application NY/2025/0030/ENV from Mr Terry King.

Comments:

Residing in Scarborough's coastal region, I am concerned about the potential environmental impact of the Europa propellant squeeze operation.

Drilling or propane squeeze operations could cause substantial damage to our distinctive coastline and surrounding areas.

The Northbound roads into Scarborough are unsuitable for heavy machinery due to narrow roads through Cloughton and Burniston, as well as tight roundabouts.

I anticipate that the increased traffic generated by the drilling operation will cause disruptions, including potential damage to residential properties and the Scarborough Rugby Club which are close to the proposed drill sites.

Property prices in and around the area are going to be impacted if this proposal goes ahead.
