Planning Control

Subject:

Fracking Burniston

Dear Amy

I am writing in connection to above Planning Application made by Europa Oil and Gas for the construction, drilling and testing to this site to extract gas through a squeeze process.

We have considered this fully, We wish to object for the following reasons.

1. This is a blot on the landscape in North Yorkshire been so close to the North Yorkshire Moors
2. The process they will be using could cause coastal erosion due to it been so close to the coast or even earthquakes.
3. It is so close to residential properties.
4. It would cause traffic congestion especially in the summer time with traffic heading to the coast plus we have very young children attending the Primary School in Burniston who may have walked to school.
5. Both Burniston and Cloughton have lots of heavy goods vehicles passing at present because it is the main route to the coast from the North. So this would add extra traffic.

We hope our concerns are taken into account by the planning Committee during your review process.

Yours sincerely

Mr Dennis Whiteley

Mrs Nadine Beryl Whiteley
