Objection to planning application NY/2025/0030/ENV

Dear Sirs,

I strongly object to the proposed gas field at Burniston. North Yorkshire is trying to be the first Net Zero county in the UK they cannot do this by permitting new gas fields to be created.

Proppant squeeze is effectively fracking under a new name and should be treated the same, it should be banned.

As usual there is a minefield of documents etc.. with the application, none of help to a layman. As a layman I view this as another attempt by big money to ride roughshod over the locals, to damage the environment and maximise their profits. Nothing will be done to the benefit to Burniston or Yorkshire.
