Date: Application to permit fracking at Burniston
13 March 2025 21:06:04

Dear Sir,

I wish to object most strongly to the above application which is neither justified nor appropriate.

It is not justified since we are rapidly developing alternative more efficient methods of power generation which do not involve pollution in any form.

It is inappropriate since the area involved is one of outstanding natural beauty highly valued not only by its immediate neighbours but by worldwide visitors and should be valued as such,

Yours sincerely

Michael Wardle
