Subject: Objection to plans for drilling for gas in Burniston

I would like to register my objections with you against the proposal from Europa Oil and Gas to drill for potential reserves of gas near Burniston.

I understand that they are proposing to do this with a process called 'proppant squeeze' that exploits a loophole in the government's ban on this type of gas extraction.

The area for proposed drilling is close to the beautiful North York Moors and East Coast. We should be taking as many steps as possible to protect and nurture these environments. Allowing gas companies to 'frack' in practice if not in name is not acceptable. If gas is found then more destruction is inevitable. The adverse side effects on nature, people living in the area, tourism and the environment are not acceptable. I see no benefits from this plan being approved. As such I am strongly against it.

Kind regards

Janet Parish
