Dear Sir/Madam,

Objection to Planning NY/2025/0030/ENV
Land East of Mill yard, Burniston Mill, Coastal Road Burniston YO13 0DB

I wish to lodge an objection to the above proposal made by Europa Gas and Oil.

1. The company state that there will be additional traffic within the Scarborough area to service the site. Europa Gas and Oil state that there will be minimum movement of HGVs. What they do not tell you is what size these vehicles will be. The roads to this proposed site are already congested and additional 1134 lorries (in the initial phase) using this route will affect the air quality and add to the already air pollution. The roads being used pass by schools and Scarborough Hospital.
2. It is my belief that the turn from High Street Burniston to Coastal Road Burniston will prove very difficult for the size of vehicles required to deliver and service the proposed site.
3. The work schedule is given as 7am to 7pm far in excess of present work schedules given to all the building work going on in the village.
4. Europa Gas and Oil will be constructing a tower approx 38m high. This tower is going to be used as a flare stack. The land that this stack is on is a well known turning point for birds coming into the North Yorkshire Moors and will no doubt cause fatalities.
5. Europa Gas and Oil claim they are not Fracking as the land does not hold any shale. The underground soil is sandstone, what happens to sandstone when high pressure water is injected? Europa Gas and Oil have not addressed this question.
6. Adjacent to the proposed site is Yorkshire Water Sewage Treatment works. Any land movement is likely to cause a massive environmental event to this area. Is the council ready for this?
7. Landowners are worried about the water table and any pollution that may happen due to this process will affect not only existing bore holes but also ponds and lakes being used by watering birds.
- 8.. Europa Gas and Oil admit that this operation will cause dust emissions. As someone who is diagnosed with COPD, the quality of the air will be affected

9. Europa Gas and Oil admit that they will be removing contaminated water from the site by Tanker. Are you ready to deal with the consequences of this?

10. His Majesty's Government have recently announced that they are about to declare a moratorium on all Fracking. Europa Oil claim they are not Fracking. They are using back door methods to get their own way. It is Fracking by another name.

11. Burniston was a beautiful small village, if this goes through, not only will the expansion caused by various building sites, increase traffic in the area but this proposal will give the village nothing but additional pollution.

12. This release of gas will do nothing for the UK as our Government want us to be more aware of Climate Change and reduce our use of gas.

Yours Faithfully

Mr David Charles Wright
