Subject: New comments for application NY/2025/0030/ENV
Date: 14 March 2025 16:18:15

New comments have been received for application NY/2025/0030/ENV from Mrs Tracey Woollen.

Comments:

This fracking site would completely ruin our beautiful coast line and we don't know what effect this is going to cause in the future, for us our children and future generations. We need to think about our environment now, before we completely destroy our beautiful planet. All the lorries coming and going through the village of Burniston and surrounding area's, causing problems on the roads, which can be really busy during the holiday season, we have enough pollution as it is. Please don't agree to it, this will be a complete eyesore in our beautiful corner of the Yorkshire coast and what is it going to do to all the wild life that calls this area home and not just to them but all the sea life which it may effect. Living close by to this area, I am in total support of all the people of Burniston and surrounding area's. Don't spoil what everyone has as a beautiful home and village, don't spoil the roads with heavy traffic and pollution. Save what we have and enjoy it, for us and future generations.
