**Subject:** New comments for application NY/2025/0030/ENV

**Categories:** ■

New comments have been received for application NY/2025/0030/ENV from Mr Michael Ives.

Comments:

I wish to object to the proposed application.

From an environmental point of view it is completely unacceptable. The transport infrastructure is totally inadequate to handle the potential amount of HGV traffic together with the already existing tourist traffic in the summer months.

There appears to be no assessment as to whether this project falls into scope of the Supreme Court decision in respect of Finch vs Surrey County Council where the downstream effects of carbon emission need to be considered.
