Subject: New comments for application NY/2025/0030/ENV
Date: 14 March 2025 16:43:55

New comments have been received for application NY/2025/0030/ENV from Mrs Carmela Land.

Comments:

Approving new gas developments contradicts the uks commitment to reducing carbon emissions and transitioning to sustainable energy sources. Burning more gas contributes to climate change at a time when we need to be doing the exact opposite.

We don't need more gas we need clean energy. Please reject this application
