**Subject:** New comments for application NY/2025/0030/ENV

**Categories:**

New comments have been received for application NY/2025/0030/ENV from Mrs Megan D.

**Comments:**

I strongly object to the proposed fracking site in Burniston due to its environmental, health, and economic risks. Fracking poses a serious threat to local water supplies, air quality, and biodiversity, potentially causing long-term damage to the North Yorkshire countryside. The risk of seismic activity endangers homes and infrastructure, while increased HGV traffic will disrupt local communities. Additionally, fracking contradicts the UK's commitment to sustainable energy and net-zero goals. I urge the council to reject this proposal in favour of cleaner, renewable energy solutions.
