Europa Oil and Gas application for appraisal drilling at Burniston Mill site

Dear Amy

I am writing in connection with the above Planning Application made by Europa Oil and Gas application for the construction, drilling and testing of this site to extract gas through a propane squeeze process.

I've considered this in full, I wish to object for the following reasons:

1. Damage to wildlife and site of special scientific interest
2. Close to weak cliffs and it is only 1 km from National Park
3. Drill site too near to local villages
4. Precious Farmland destroyed
5. Devastating our beautiful countryside, heritage coastline and Cleveland way.

I hope my concerns are fully taken into account by the planning committee during your review process.

When there was fracking in Lancashire there was earthquakes and we don't want that here in Burniston or Scalby. As it is near peoples homes and businesses plus we don't want it affecting our tourism. I hope that peoples serious objections will be taken into consideration.

Yours sincerely

Mrs C Curtis
