New comments have been received for application NY/2025/0030/ENV from Mr Glenn Gorner.

Comments:

We object due to the risks and hazards involved. We should be moving away from gas and towards renewable energy sources. It will devastate our beautiful countryside so close to the national park, will create lots of HGV traffic and will not provide cheaper gas bills for local people. Local people should have a say in what happens in their locality.
