Subject: New comments for application NY/2025/0030/ENV
Date: 15 March 2025 17:12:03

New comments have been received for application NY/2025/0030/ENV from Mr Brian Davidson .

Comments:

This technology has been shown to cause earth tremors in other areas. There are three large villages around this site that maybe in danger as a result. If you can prove that there will be no damage to building or land in this vicinity then you can approve in the knowledge that NYMNP will be able to successfully defend any future legal actions in approving this plan.

In addition, this is an area of outstanding natural beauty, which this scheme will comprise.

Further, the area is vital for local businesses which are reliant upon tourism. Disruption, traffic, new buildings of an industrial nature and the prevalence of industrial machinery, will threaten the tourism industry.
