Subject: New comments for application NY/2025/0030/ENV
Date: 15 March 2025 19:59:08

New comments have been received for application NY/2025/0030/ENV from Mrs Josephine Hiley.

Comments:

I feel the proposed planning application for a test drilling rig , possibly leading on to full scale removal of gas is totally inappropriate for the times we live in, we are all desperately trying our hardest to cut down on using such fuels for the future of our environment , there has been a marked increase in extream weather patterns locally and nationally , burning and extracting yet more fossil fuel will be detrimental to ourselves and the wild life , this not a case of "not in my back yard" I would object where ever there are such proposals. Far too often money and profit comes way above what realy matters, a clean and safe environment for us all to live alongside the incredible wildlife and diversity .
