FOR THE ATTENTION OF. AMY TAYLOR

I strongly object to the above planning application for the following reasons:-

Climate Change is an enormous threat to our world and this adds to increase the effects. Burning gas into the atmosphere should that alone stop this application. Britain is suppose to be moving to cleaner energy and this goes totally against that. Added to this is the pollution it will cause.

We moved here to semi rural village 20 years ago and value the beauty and tranquility of the surrounding farms and country. This development will destroy this with heavy industrial vehicles, noise and pollution. This will also impact the Tourism people visit this area for the Coastline and beauty. This is close to the beauty of National Park and a decline in numbers will affect local businesses.

Please say NO to this application and protect the environment and life and our beautiful area.

Elaine Tighe (Resident of Burniston)
