**Subject:** New comments for application NY/2025/0030/ENV

**Categories:**

New comments have been received for application NY/2025/0030/ENV from Mrs Joanne Hartley.

**Comments:**

I object to the above proposal for the following reasons:

**Environmental**

UK is moving to renewable energy and other gas sites are being shut down and/or not allowed.

Pollution of local area with gas flaring and potential damage to water supply, ecosystems, habitats, National Park nearby etc.

Industrial development near rural homes and destruction of farmland.

Risk of earth tremors.

**Tourism**

Devastating to an area of natural beauty that people enjoy as a holiday destination which would also affect local communities with decline in visitors.

Finally, the gas would be sold internationally- this is ludicrous!
