**Date:** 16 March 2025 19:23:05

---

I am writing to object to this application which I feel will be a disaster to the local area . With the science telling us clearly that the fossil fuel industry should not still be expanding its drilling and extraction, but should be investing in renewable forms of energy.

My husband and myself have enjoyed our holidays in this beautiful area for the past 2 years and are planning on returning again this year . We love the beautiful coastline and fresh air. However we will not be returning annually if this application is approved as I am concerned over potential pollution, including the water quality . Please see sense and turn this application down, we should be encouraging and enabling clean , renewable energy sources.
