Subject: New comments for application NY/2025/0030/ENV
Date: 16 March 2025 16:03:26

New comments have been received for application NY/2025/0030/ENV from Dr Paul Elsam.

Comments:

As a 30-year resident of Burniston, I object to this proposal on every level. It promises to worsen climate change, and will increase pollution and traffic damage to roads, as well as to local tourism.

In addition, I question the community responsiveness of the company making this proposal. Their postal literature invited engagement, I emailed a short objective question, and I have yet to receive a reply - several weeks on.

Please respect the strength of feeling from so many in the area, and reject this proposal.
