Subject: Objection to application NY/2025/0030/ENV

Categories:

This application MUST be turned down.

There is no justification on earth for more fossil fuel extraction.

We are OUT OF TIME!

Our planet is heating rapidly and every fraction of a degree matters. We must turn this around. Investment should be in renewables NOT the fossil fuels that are killing our planet.

Stop adding more fuel to the fire!

While I do not live in this immediate area, I do live on this Earth, and all of us will be impacted sooner or later.

We must all come together now and work for a brighter, kinder future while we still can.
