Subject: New comments for application NY/2025/0030/ENV

Categories:

New comments have been received for application NY/2025/0030/ENV from Mr Gerald .

Comments:

This application is on the boundary of the National Park, in an area of outstanding beauty and very close to residential housing. The impact on the community and environment, resulting from noise, HGV's and pollution that this project will bring, will be devastating and should not be permitted. NYCC needs to support its community, not a company motivated by profit with no other interest in negative impact it will have on this area.
