**Categories:**

New comments have been received for application NY/2025/0030/ENV from Mrs Karen Tamblin .

**Comments:**

I object to the proposed site being allowed. I worry about the traffic impact which is now high due to this being the main road north. I object to the impact on the environment being so near the already crumbling coast.  
I object to the impact to health due to the burning and emitting pollutants into the air around an increasing in population village.
