To whom it may concern

Re: Objection to application NY/2025/0030/ENV

I strongly object to the application named above. My family and I are regular tourists to the area and have real concerns about this proposal. I fear that if fracking goes ahead then the resulting pollution, disruption to wildlife and aesthetic changes to the area would have a direct impact on tourism. The local economy would be affected by this. I also have concerns surrounding environmental impact and climate change, brought about by fracking. We must protect our environment for current and future generations.

Yours faithfully
