Dear Ms Taylor,

Proposal Construction of a temporary wellsite for the appraisal of gas, including drilling operation, proppant squeeze and flow testing operation and site restoration
Location Land East of the Mill Yard, Burniston Mill, Coastal Road, Burniston, Scarborough,

Many thanks for giving North Yorkshire Police (NYP) the opportunity to comment on this application. I have conducted an analysis of crime & disorder covering the period between 1 March 2024 and 28 February 2025 for an area within a 1Km radius of the site, which showed that the site is located within an area with relatively low crime & disorder levels, with 10 crimes and 1 anti-social behaviour incident being recorded by NYP.

Having reviewed the accompanying documents and drawings that were submitted with the application and liaising with other departments within NYP¹, it would appear that the applicant intends to incorporate appropriate security measures that will reduce the potential for the proposal to suffer from crime and disorder. However, I would suggest that they should consider the installation of a CCTV system to cover the site and its perimeter.

CCTV systems can be effective in deterring a criminal, as well as providing potential evidence relating to the commission of a crime or capturing hostile reconnaissance prior to a crime being committed.

Any CCTV system installed on business premises for the purpose of crime prevention should be registered with the Information Commissioners Office (ICO), in order to comply with the Data Protection (Charges and Information) Regulations 2018 and should also comply with the CCTV Code

¹ Local Neighbourhood Policing Team and Operations and Contingency Planning Unit

of Practice issued by the ICO) which can be found at <https://ico.org.uk/for-organisations/uk-gdpr-guidance-and-resources/cctv-and-video-surveillance/>

I have no other comments to make at this time but if I can be of any further assistance, please do not hesitate to contact me.

Yours sincerely,

Mr M Roberts 4 To 73
