Subject: Europa Oil and Gas planning application Burniston

Categories: Jo

Reference: NY/2025/0030/ENV.

I object to the above planning application to extract gas by fracking. It is known that fracking can cause earth tremors and earthquakes. Also, it will have an effect on the surrounding countryside and coastline. The burn off is a pollutant which is not acceptable. Burniston and the surrounding area are well populated and the impact it will have on the community will be devastating.

We often spend time walking around Burniston and enjoy the coastline. Any major development causing road congestion and pollution would stop us going there.

I believe the amount of gas extracted does not warrant the potential earth tremors, scaring of landscape, upsetting a community and pollution.
