Subject: New comments for application NY/2025/0030/ENV
Date: 20 March 2025 10:52:03

New comments have been received for application NY/2025/0030/ENV from Mrs Lynn Butler .

Comments:

For 8 years we've been travelling to Burniston and own a caravan at the Burnside Holiday homes. We chose that site for the quiet of the country side fresh air and lovely dog walks through the open fields and Cleveland Way. We stay for most long weekends and also weeks all year round .Our grandchildren often stay and love the freedom of the countryside. If Europa Oil and Gas were given the go ahead all that tranquility will be lost. There are only 2 main roads to Scarborough, the Coastal Road being one. Traffic is busy during the summer months and farm vehicles are regularly along the road. Traffic is already busy without HGV wagons passing back and forth. The famous Cleveland Way is eroding along the North Bay and large chunks have been falling off regularly over the past few years and drilling would weaken geological faults even more. If this company was given the go ahead good farmland would be destroyed. Close to proposed site deer and hares are often seen, partridges, pheasants and other wildlife which we love to watch. Please keep Burniston and surrounding areas Frack Free. Do we really need this development, all the pollution, toxic fumes, risks of earth tremors. How is this helping climate change?
