Subject: New comments for application NY/2025/0030/ENV
Date: 20 March 2025 12:32:32

New comments have been received for application NY/2025/0030/ENV from Mrs Joanne Brannan.

Comments:

I object to Europa applying for fracking in our lovely village of Burniston. My family and I have moved from a very polluted city after [REDACTED] to this lovely peaceful village and now you are expecting us to live with this on our doorstep? My two daughters [REDACTED] and are already [REDACTED] and this will cause so much worry especially if they feel a tremor! You would be causing us unnecessary suffering and stress if this is accepted. The pollution and noise will be horrendous causing major health implications to us and especially if it affects our water. My daughter who is [REDACTED] relies on water to [REDACTED] as she doesn't have many of them so if the water supply was compromised it would be detrimental to us. We love being in the countryside away from hustle and bustle, there's plenty more areas Europa can go to away from greenbelt land so please do not accept their application. I urge you to consider the residents of Burniston and surrounding and really taking on board our reasons why this should not happen. Thank you.
