---

Good morning,

I am emailing to object to the fracking in Burniston.

The world can have no new oil or gas if we are to combat the catastrophic climate crisis. Europa actually plan to drill for 20 years. This MUST NOT go ahead to give us and our children a safe future. It also will not help the UK economy or benefit the UK financially. Europa plan to sell the gas on the open market - it won't be available locally and won't reduce gas bills. The gas will financially benefit Europa and their shareholders, not residents.

In addition this will cause damage to nature and biodiversity. Again we in the in middle of a nature crisis in the UK and must protect our natural habitats. It can pollute waterways and damage the fragile cliffs in the area.

It's also awful for the local tourism / economy due to noise, air and light pollution. This will deter people from visiting and reduce house prices in the area.

This fracking must not go ahead.  
Yours Faithfully,
