**Date:** 21 March 2025 09:50:46

---

New comments have been received for application NY/2025/0030/ENV from Mrs Therese Cappleman.

Comments:

I object to this application

There will be no financial benefit to the local community and only potential detriment to local tourism economy being so close to the Cleveland way and national park

It is very close to the local rural population and this will have a detrimental impact on noise, dust and light pollution, traffic impacts and damage to local wildlife. There is also the potential damage to the heritage coastal cliffs

More widely government policy is to move away from carbon fuel to renewable clean energy and this submission is completely at odds with these aims
