Subject: New comments for application NY/2025/0030/ENV
Date: 21 March 2025 10:01:41

New comments have been received for application NY/2025/0030/ENV from Mr Philip Gadsden.

Comments:

The increased traffic which will be generated by this 'development' will be horrendous not only by the local residents but also through the village and through roads. The A165 is a main arterial road with constant traffic both day and night and was certainly never built with this amount of foreseeable traffic - and the noise will be unbelievable and together with the increased dust, brakes screeching and hissing and the danger to passing pedestrians, schoolkids, senior citizens etc will be unbearable.
