Subject: New comments for application NY/2025/0030/ENV
Date: 22 March 2025 10:40:16

New comments have been received for application NY/2025/0030/ENV from Mr Tom King.

Comments:

Fracking is bad for the environment, could cause toxic material to escape the site, has been proven to cause Earth tremors damaging to buildings in the surrounding area. It is widely disliked by the general population and is likely to have a negative impact on the businesses in the area that rely on tourists for their income. On top of all this it will result in an increase in the amount of commercial vehicles driving through our beautiful countryside.
