Subject: New comments for application NY/2025/0030/ENV
Date: 22 March 2025 15:21:19

New comments have been received for application NY/2025/0030/ENV from Mrs Jennifer Britton.

Comments:

I would like to plead with NYCC not to allow this planning application. It will do irreparable damage to our trust in you as a council. Drilling for gas on the outskirts of Burniston would be a devastating blow to this area. We are meant to be moving towards renewable & clean energy not drilling for gas and burning flares, and creating a visible industrial site. The view along the coast towards Scarborough from Ravenscar, Cloughton, & Staintondale is one of the best in the county. Please don't ruin it, we're on the edge of a national park, the Cleveland Way...in an outstandingly beautiful area...to allow this application would be a travesty and will bring years of disruption to the area. Please do not allow it. I object in the strongest terms. I object as an ex resident of Burniston now living in Newby.
