Good Afternoon,

Although I do not live near where this drilling is proposed I do have a view on this matter. If North Yorkshire Council will not give a grant to Derwent Valley Bridge Library to replace their aged gas boiler with a new gas boiler because it would not meet their Green Energy plans, how will it be possible for them to grant a license to drill for shale gas?

The comments from Europa Gas on the lack of flora, fauna and birdlife is laughable, they obviously did not spend more than a few minutes at the site. Of particular concern are Barn owls that roost in the area, on of many endangered species in the area.
