**Subject:** New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Mr Jacob Ross.

Comments:

I wish to object in the strongest terms to the proposed development of gas exploration and extraction at Burniston. As a country and across the world, we must accelerate the transition to renewable energy, not seek to extract more fossil fuels. The impact on our local community from noise and pollution from the lorries and industry is appalling, in an area of unique and fragile environmental beauty. Please just stop.
