Subject: Objection to Burniston Fracking plans NY/2025/0030/ENV

Dear members of the planning team,

I'm writing to you as a parent and citizen who is deeply concerned about the potential fracking project set to happen in Burniston. While I am not from the area myself, my partner is and I've been fortunate enough to experience the beauty and charm of the coastline in question. My partner has many fond memories of summer days in Scarborough and to destroy the area with fracking would be an outrage.

I'm sure that will have been informed many times now about the negative impact such work can have from an environmental perspective and I urge you to not allow the project to ahead.

Yours hopefully,

Isabel Trevarthen
