Subject: New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Mrs Simone Beadle.

Comments:

My reasons for objection to this are 1. Totally incompatible with net zero 2. Damage to ecosystems and wildlife from noise 3. Damage from light pollution (we regularly walk here to see amazing birdlife and wildlife including many bats along Rock's Lane) 4. Unacceptable risk of chemical pollution and earth tremors (as has happened in the US) 5. Devastating to economy of tourism and quality of life for local residents
