**Subject:** New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Mrs Janet Beadle.

Comments:

I am objecting to the planning application NY/2025/0030/ENV. I am objecting as this application , if granted will have an adverse effect on climate change, the local community, the environment and tourism of Scarborough and its surrounding coastline. It is also against the UK National Planning Policy Framework as this advises against " inappropriate development" and not in line with this government commitment to reach a legally- binding 'net zero' emissions target by 2050. It will have a devastating effect on the environment of this beautiful rural community.
