Subject: New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Mr John Carrier.

Comments:

I wish to object to the above planning application for the following reasons:-

- 1 The locality has an amazing countryside and Coastline which attracts thousands of tourists who support the local economy. The situation is compounded by the site being very close to the National Park.
- 2 These commercial activities will create noise, light pollution, dust and toxic fumes which will damage farmland and have a detrimental impact on homes and a rural village with the associated reduction in values.
- 3 There is a risk of earth tremors due to geological coastal faults.
- 4 Burning more methane gas means more Co2 which is against the Governments policy of net zero challenges everyone faces.
