Subject:

Dear Planning Committee,

Regarding NY/2025/0030/ENV, I object most strongly to Europa Oil and Gas's application to frack for gas in the Burniston area. My objection is based on the following reasons. Although I live in Ryedale now, I resided for 10 years in Scarborough and I regard the physical beauty of the Burniston and Cloughton area with great sentiment and appreciation.

1. The drill site is just too close to homes in Burniston and would destroy prime agricultural land.
2. Preparing the site and then drilling would create awful traffic in an area already under great stress from existing traffic.
3. Why drill for gas to burn when the UK is moving to safe, clean renewable energy?
4. Drilling and preparing the site will create significant pollution.
5. The site lies on our beautiful heritage coastline and drilling for gas has the potential to cause huge damage to local wildlife and flora.

Yours sincerely,

Dr Farrell Burnett
