RE: Planning No: NY/2025/0030/ENV

Dear Ms Taylor,

I STRONGLY OBJECT to the above Planning Application.

Europa Gas & Oil CANNOT GUARANTEE that there will be no adverse seismic repercussions to this land - now, or in the future.

The proposed drilling will most definitely have adverse effects on local tourism, pollution, property prices, plus increased movement of HGVs and traffic visiting the site. The site is on one of the gateway routes to the North York Moors and will, literally, undermine the image of the region as a tourist destination.

Any argument that local jobs will be created is vastly outweighed by the negative impacts on the region. Any profits will NOT benefit the area, but be given to shareholders.

I also oppose on environmental grounds: coastal stability, light pollution, gas emission, and disturbance and danger to local bird and wildlife - and the activity makes a mockery of the Government's stated desire to move away from the use of fossil fuels.

Yours sincerely

Jane Poulton
