Objection.

As a mother of a young family living in this quiet rural village I am very concerned about the road safety this proposal will cause, all the extra HGV is a worry for the pollution, but also my son who rides his bike on these roads. The other main worry is the impact to the environment, we have unstable cliffs nearby which are very popular with walkers, both local and tourists. This is also an area of SSSI with seabirds, seals and dolphins. I am very against them trying to push through this wholly unsuitable application and site this so close to our village.
