Subject: New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Mr Paul Hodgson.

Comments:

I oppose the plan because I believe that the method for extracting gas could produce earth tremors, thus affecting local homes, and the use of chemicals in the extraction process could affect the water supply. There are many other reasons why I oppose this potential development but I have concentrated on my two main objections.
