Subject: New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Ms Bridget Holmstrom.

Comments:

This application must be refused because there is no justifiable case for further development of fossil fuels in this or any other country. We are in a climate emergency and it is utterly unacceptable that fossil fuels should be further exploited.

Europa Oil and Gas assert confidently that this application will contribute to the Government's net zero objectives. This is true, approving this application will make net zero that much harder to achieve.
