Subject: New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Mrs Shirley Wharf-Holm.

Comments:

Having considered this fully, I wish to object for the following reasons:

1. The destruction of quiet semi-rural area of the Heritage coastline and part of the Cleveland Way.
2. The devastation of wildlife habitat and birdlife.
3. The increase in HGV traffic/noise on unsuitable roads in residential areas, impacting the road safety of school children and their families.
4. The increase in pollution; air quality plus possible methane leakage. The vulnerability of water sources due to the chemicals used in the process of extraction.
5. The potential of further drilling sites in the area if successful, which would in turn only increase the disastrous impact on this beautiful country side area.

I hope my concerns are fully taken into account by the planning Committee during your review process.
