Re: Planning Ref. No: NY/2025/0030/ENV
Europa Oil and Gas application for appraisal drilling at Burniston Mill site

Dear Ms Taylor,

I am sending this email to you about the planning application referenced above made by Europa Oil and Gas for the construction, drilling and testing of this site to extract gas via a proppant squeeze.

I wish to object to this application for the following reasons.

1. Due to climate change we should be moving towards producing more renewable clean energy. We do not need more gas production.
2. This development would have a negative impact on our local wildlife, the quality of life for residents and tourism.
3. There is worrying medical evidence from America that indicates this type of development could put our water supply at risk and may have a negative impact on the health of babies and adults within a 10 mile radius of the site.

I hope that my concerns are taken into account by the Planning Committee during your review process.

Yours sincerely

Eric Barnes
