Subject: Objection to application NY/2025/0030/ENV
Date: 26 March 2025 18:37:31

Dear planning application officer,

I wish to add my name to those who strongly object to the proposal for gas drilling at Burniston.

I have many reasons for objecting to this application, but my main concern is an environmental one, not only concerning the local pollution caused by the gas drilling company, but the overall environmental concern regarding global warming and climate change.

It is now clearly evidenced by climate scientists and economists that we need to drastically reduce CO2 emissions and there is further good evidence that we can derive enough power over the next decade by rapidly converting to more and cheaper less polluting and sustainable forms of energy production, mainly in the form of wind and solar power.

Thank you for taking my views into your consideration.

Dr Mike Nutt
