Subject: New comments for application NY/2025/0030/ENV
Date: 27 March 2025 22:56:08

New comments have been received for application NY/2025/0030/ENV from Mrs Jennifer Foulds.

Comments:

This is essentially fracking, which is damaging to the environment, it's unsustainable for the future, we need to move away from fossil fuels.

The area does not have the infrastructure to support this process and proposal. This is a small community and it has poor roads for any proposal requirements.

This is a seaside location and in being so, it gets it's livelihood from tourists. The proposal will visibly affect this livelihood, visually and in practical ways, for example on the increased use of the roads. Etc
